SUMMARY

Motivated Computer Science student at the University of the Punjab (CGPA: 3.53/4.00) with hands-on experience building responsive, interactive web applications. Proficient in HTML5, CSS3, JavaScript and React.js with a portfolio of live-deployed projects and a completed full-stack development internship. Known for quick learning, strong communication, and delivering clean, user-friendly web solutions. Seeking a frontend development internship or junior role to grow professionally and contribute meaningfully to a team.

EXPERIENCE

Full Stack Web Development Intern (Remote) | NeuroFive Solutions

July 16 – August 28, 2026 (6 Weeks)

- Completed a virtual full-stack internship following an incremental development approach, building progressively on a MERN-stack (MongoDB, Express, React, Node.js) skill set task by task.
- Delivered the assigned incremental tasks as live full-stack and frontend projects, including a full-stack to-do app, a full-stack job application system, an AI SaaS landing page, and a travel discovery app (detailed under Academic Projects).

Teacher | Private Educational Institution

- Delivered structured lessons to classes of 25–30 students, improving learning outcomes.
- Developed strong classroom management, communication, and presentation skills.
- Prepared student assessments and maintained detailed academic progress records.

Administrative Coordinator | School Administration Office

- Managed daily administrative operations including student records and office documentation.
- Coordinated with parents regarding student progress, examinations, and school policies.
- Assisted in syllabus planning, academic scheduling, and staff coordination.
- Maintained organized filing systems, improving retrieval efficiency by a significant margin.

ACADEMIC PROJECTS

Personal Portfolio Website

2025

- Designed and developed a fully responsive personal portfolio using HTML, CSS, and JavaScript.
- Live: aroojmehmood.github.io/Portfolio/

TaskFlow — Full-Stack Todo Application

- A full-stack MERN task manager with multiple pages — signup, login, JWT authentication, an admin panel, and a live dashboard with complete CRUD. I planned the architecture, built and tested it end-to-end with AI-assisted pair programming — core design decisions, implementation, and deployment are my own, then deployed the frontend on Vercel, backend on Railway, and database on MongoDB Atlas.
- Live: fullstack-todo-app-gold-iota.vercel.app/

NexusAI — Premium AI SaaS Landing Page

2026

- Designed a modern AI SaaS landing page using fully responsive layout, glassmorphism UI, smooth animations, interactive components, and a clean user experience.
- Live: aroojmehmood.github.io/NexusAI-Landing-Page/

Explore Pakistan — Travel Discovery Web App

2026

- Designed a responsive travel discovery web application that helps users explore beautiful destinations across Pakistan while viewing live descriptions and images fetched from the Wikipedia REST API.

- Live: aroojmehmood.github.io/Explore-Pakistan/

QuizWise — AI-Powered Study & Quiz App

2026

- Built a React study app where users paste notes or a topic to get explanations and auto-generated 15-question MCQ quizzes using the Google Gemini API.
- Includes a progress dashboard with quiz history, daily streak tracking, and a custom spaced-repetition scheduler that sets review reminders based on self-rated difficulty. Features a responsive glassmorphism UI built with React Router and plain CSS.
- Repository: https://quizwise-psi.vercel.app

Study Tracker — React Progress Tracking App

2026

- Built a React application that lets students maintain their course/subject progress as percentages, with full edit, delete, view, search, and filter functionality.
- Repository: github.com/AroojMehmood/study-tracker

Energy Studio — Gym Website

2025

- Built an attractive, fully responsive gym website with modern layout, CSS animations, and a hamburger nav panel.
- Live: aroojmehmood.github.io/Energy-Studio/

Job Application Form

2026

- A full-stack Job Application system built with MongoDB, Express, React, and Node.js (MERN). Architected and built independently with AI-assisted pair programming — core logic, architecture, and implementation are my own.
- Includes a polished drag-and-drop resume upload form with live preview and real upload progress, plus an Analytics Dashboard with interactive data visualizations built from real backend data.
- Repository: github.com/AroojMehmood/job-application-form

Online Meal Website

2025

- Developed a multi-page responsive restaurant site with a hamburger menu and CSS-animated sections.
- Live: aroojmehmood.github.io/Online-Meal-Website/

JavaScript Quote Generator & Stopwatch

2026

- Built two interactive JavaScript apps — a dynamic random quote generator and a fully functional stopwatch with start/stop/reset controls.

CERTIFICATIONS

- Full Stack Web Development — Virtual Internship, NeuroFive Solutions (July 2026 Cohort)
- Critical Thinking — Deloitte WorldClass (September 2026)

EDUCATION

Bachelor of Science in Computer Science (BSCS) | University of the Punjab, Lahore, Pakistan

2024 – 2028

- Current Semester: 5th | CGPA: 3.53 / 4.00 | Expected Graduation: 2028

SKILLS

Technical Skills: HTML5, CSS3, JavaScript (ES6+), React.js, React Router, SQL, C/C++, Data Structures

Python & AI/ML: Python, NumPy, Pandas, Machine Learning (regression/classification), Deep Learning

Tools & Concepts: VS Code, Git & GitHub, MS Office, Vercel, Railway, Responsive Design

Languages: Urdu (Native), English (Working Proficiency)

SOFT SKILLS

Communication, Leadership, Teamwork, Time Management, Problem Solving, Adaptability
